

## PortLock Keyed Laptop Lock for Specialized USB-C® Lock Slots

Part Number: K64546WW, K64547M, K64547EUM

UPC code: 0 85896 64546 7, 0 85896 64547 4, 5028252653718

Precision fit.  
Effortless  
protection.

Newer Dell XPS 14 and XPS 16 laptops (2026+) feature a proprietary USB-C® security slots that are incompatible with standard laptop locks, requiring the use of adhesive locking plates, which can add bulk, hinder stability, and leave sticky residue.

The PortLock Keyed Laptop Lock addresses these challenges by attaching directly to the specialized USB-C® security slot without requiring an adapter, preserving the laptop's slim profile and supporting full port access. PortLock's low-profile lock head prevents wobbling, while the pivoting design supports userfriendly one-handed attachment.

Approved by Dell, the PortLock Keyed Laptop Lock streamlines deployment and enforces corporate security policies, giving IT managers robust protection without compromising usability.

- Dell-approved for XPS 14 and XPS 16 laptops with specialized USB-C® slots (2026+)
- Slim lock head ensures no laptop wobble
- Pivoting lock head lets you secure the lock from any angle
- Does not block ports
- Long 6ft (1.8m) carbon steel cable
- 5mm Keying System streamlines key management
- Tested for strength, physical endurance, and mechanical resilience
- Register & Retrieve™ for free replacement of lost keys
- 5-year limited warranty

### Designed Exclusively for Dell

Specifically designed for the latest XPS 14 and 16 laptops with specialized USB-C® slots (2026+), this Dell-approved lock eliminates the need for bulky adhesive adapters – while preserving your laptop's sleek, professional appearance.

### Slim Lock Head

The low-profile lock head provides trusted direct-attach security while allowing your device to lie flat and stable.

### Pivoting Head and Rotating Anchor

Engage the lock with one hand at any angle without blocking nearby ports or straining your laptop's lock slot or chassis.

### 6ft (1.8m) Carbon Steel Cable

Resists cutting attempts and features a plastic sheath that protects desktop surfaces while offering ample length for anchoring your laptop to desks, tables, and other fixed structures.

### 5mm Keying System

Standardized across our latest locks, the 5mm Keying System enhances security and streamlines key management. It features a smaller keyway with precision-engineered internal mechanisms to resist picking attempts, and is available in standard, master, and custom keyed options.

### Verified & Tested

Each Kensington lock is precision engineered to meet or exceed rigorous industry standards for strength, physical endurance, and mechanical resilience.

### Register & Retrieve™

Kensington's online key registration program that allows for quick, secure, and free key replacement if ever lost or stolen.
