

Preferred over earbuds for comfort and sound control, over-the-ear headphones and headsets play an important role in classrooms, school libraries and learning labs. The MAXCases Extreme Headsets/Headphones cover all the bases, with a design that's ideal for the rigors of all-day use. The durable, fixed-position stub mic (headsets only) delivers clear audio quality, while the adjustable earpieces with padded covers and left-right labels provide comfort for extended listening in any environment. Created to last, the rugged design includes a durable, braided cable, a flexible headband, and smooth, easy-to-clean surfaces. Drop tested up to 6.6 feet (2 meters) and covered by a two-year warranty.

Extreme Headsets & Headphones

Classroom tough, comfortable listening
